CHANGE IN TRASH AND RECYCLING COLLECTION

Stratford has entered into an agreement from June 01, 2008 to December 31, 2008 with the Borough of Magnolia to provide trash and recyclable collections. In this short time Stratford will save over \$65,000 by contracting with Magnolia. In these tough budgetary times this savings is being well received. The trash and recyclable schedule will change beginning June 01.

The newest trend in recycling is, "Single Stream Recycling". This makes it easier for you to recycle by allowing you to mix your paper in with your cans and bottles. They can all go in the same red recycling

can. The recycling plant will sort out the paper from the cans and bottles. If you would like to separate them still you may, but they all go into the same truck.

YARD WASTE

will now go out on your regular trash day. You no longer have to leave the lid off the container nor leave the bag untied. Branches still need to be tied, bundled in 4 foot lengths, or in cans. The yard waste will be picked up by the same truck picking up your trash.

We not only will save money with the Magnolia Agreement, but we feel the collection process is simpler, and we expect the service to be better. If you have any questions regarding this new change, please feel free to contact Borough Hall, (856) 783-0600.
