STRATFORD POLICE DEPARTMENT ACTIVATES "IMPORTANT COMMUNITY INFORMATION NETWORK" (Text Messaging and Email Notification System)

The Stratford Police Department has joined Nixle, a new Community Information Service designed to deliver important and timely information to residents, school officials, business owners and alike in Stratford using the latest cellular text messaging and email technology.

This service delivers trustworthy and important neighborhood-level public safety and community event notifications by web, e-mail, and cellular phone text messaging. For example, this system could be utilized to broadcast a description of a missing child, notify the public of a serious crime or announce major traffic detours or accidents.

Nixle is a community information service provider built exclusively to provide secure and reliable communications. It is the first authenticated and secure service that connects municipal agencies and organizations to residents in real time, delivering information to geographically targeted consumers over their cell phones (via text messages), through e-mails and via Web access. Nixle has secured a partnership with Nlets (the International Justice and Public Safety Network), allowing local police departments nationwide to send immediate alerts and advisories.

Nixle is a completely free network, simple, and trusted. Stratford residents, school officials and business owners, can register in just minutes at www.nixle.com

Only representatives of the Stratford Police Department will be able to issue alerts and messages via the Nixle System therefore you can be assured that no spam or commercial advertisements will be sent to your inbox.

Please take just a moment to register and remind friends and family members to do so as well.
