Dear Neighbors,

Redevelopment and Business News

At the Stratford Municipal Council Meeting held at the Public Safety Building on Thursday, February 8, 2024, the governing body unanimously adopted Resolution #2024:38 to remove Laurel Mills LLC as the redeveloper for the former Laurel Mills Shopping Center site.

This action was taken after the owner/developer defaulted on a series of mandates, designed to continually advance the development of the former shopping center. We share in the public’s frustration, since this owner has delayed and stalled this project for far too long. With that said, the Borough Solicitor prepared and sent a default notice to Laurel Mills, LLC. Moving forward, the Borough of Stratford will be seeking proposals (RFP’s) from qualified developers in order to select a responsible, responsive redevelopment entity to finally develop the site. We look forward to a new developer who will work cooperatively with Stratford and the governing body.

We thank you for your understanding, as we navigate this process.

Ryan Homes is now completing the final building at Stratford Commons on Berlin Road. They will be celebrating their one-year anniversary next month, and we are proud of their commitment to the project, and welcome the new homeowners to Stratford. Many of the new residents purchased due to the close proximity to PATCO Transportation Center. This is the first new home development in Stratford since Woods n Leaves was completed almost 60 years ago.

At Stratford Square development on the White Hose Pike, the Stratford Joint Land Use Board (JLUB) approved the old Bradlees space to be a warehouse, with 10 truck bays. Velocity Partners is the owner of this project. They plan to begin work in order to entice a tenant for this space. Velocity Partners is a large owner of warehouse space in the Philadelphia area.

Also, at Stratford Square the front facade facelift along the strip stores is moving along. The old canopy was removed, and the new front face is beginning to be installed now.

At the new Veterans Village complex on Colby Avenue, interior renovations continue. The new entry doors for each apartment have been installed, along with the new windows on the rear walls of the apartments. They are continuing to complete the interiors. When completed there will be 21 one-bedroom apartments dedicated to US military veterans.

The Stratford senior living facility has been officially named. It will be called “Creekside at Stratford”. They have received some long-awaited approvals from the NJ Department of Health, and expects to start ground work in the early part of 2024.

Auto Zone is now open and operating in the retail space once occupied by Pep Boys. Pep Boys still retains their bay service on the Princeton Avenue side of the building. Auto Zone and Pep Boys worked hard to resolve a need in the area and to join efforts in one location.

The prior Friendly’s property has been sold, and the new owner is working on updating and renovating the interior space. They have installed new windows, and worked on the parking lot. The new establishment will be Rob’s Kitchen – Jamaican and Soul Food.

The old Harris School of Business site next to the TD Bank on the White Horse Pike has sold. The new owner has applied for interior kitchen permits to create a new restaurant space.

The JLUB is holding a special meeting on March 18th to hear the application for a new storage facility on Berlin Road. The property is part of the Berlin Road Phase 2 Redevelopment Area and Plan. The existing site is a car repair business, which originally was a Bell Telephone truck depot. The property is under contract for sale. The new developer made a public presentation to Mayor and Council at their February 8th Meeting where a color rendering was shown, and the developer was present to answer questions. The color rendering is posted in the lobby at the Borough Hall. The new building will be three stories tall, and the project will cost over $15 million.

**Borough’s Honorary Employees of the Year**

Mayor and Council recently honored two local boys as the Borough’s Honorary Employees of the Year for their efforts to emulate some of Stratford’s hardest workers.

Rori and Zennyn Foxhill are big fans of the Stratford Trash team. For Halloween, the pair decided they wanted to dress up like their favorite municipal employees. The pair even turned their little red wagon into their very own trash truck.

Rori, Zennyn and their truck were a big hit on Halloween, patrolling their neighborhood decked out in their day glow hats and t-shirts. At its February 8 meeting Mayor Hall and Borough Council honored the pair and issued each a Proclamation declaring them an Honorary Employee of the Year!

February 2024
From the Desk of Chief Ronald Morello
After much deliberation, I am proud to return to the Stratford Police Department to serve as Stratford’s Chief of Police.

When I retired some 18 months ago, I could not imagine returning to work in law enforcement, let alone as a Chief of Police. While returning to serve our community as Chief was unforeseen, it has provided me the opportunity to complete some unfinished business.

Professional development, navigating police licensing, acquiring grants and departmental accreditation are just a few of my administrative priorities. Officer recruitment also tops that list. Attracting and retaining the best and brightest police officers to serve is clearly the key to our future success. While policing remains a very noble profession, police staffing remains a very serious challenge.

Looking forward, the residents of Stratford can count on the level of stability and reliability our officers have delivered to the community for so many years.

Respectfully,
Chief Ronald M. Morello

Stratford Police Department

What is Emergency Management?

The Stratford Office of Emergency Management is a municipal public safety department that functions under the authority of the Office of the Mayor during times of emergencies, and under the Director of Emergency Services or Public Safety Director on a day-to-day basis. The office of Civil Defense was originally formed under the authority of the Federal Civil Defense Act of 1950, and amended (P.L.81-920) and the New Jersey State of Emergency Management Act of 1942. In 1978, the federal government established the Federal Emergency Management Agency, and in 1986, New Jersey adopted the “emergency management” format by virtue of the NJSP Directive No. 61 when the authority of civilian defense activities was transferred from the New Jersey Department of Defense to the New Jersey State Police by way of executive order. The New Jersey State Office of Emergency Management is charged with providing for the health, safety, welfare of the people of the state of New Jersey and to aid in the prevention of damage to and the destruction of property during emergency. This is essentially the mission and duties of the Stratford Office of Emergency Management.

What does Emergency Management Do?

Emergency Management coordinates resources, response, and recovery activities and provides an orderly plan during emergencies such as bad weather, fire, hazardous material incidents, mass casualty events, and other emergency situations or police incidents to better protect our citizens and their property.
For those who cannot attend the monthly Council Meetings, the Stratford Police Department would like to take this opportunity to provide an overview of the police department’s activity for the year 2023.

Solutions to Stormwater Pollution

Easy Things You Can Do Every Day To Protect Our Water

A Guide to Healthy Habits for Cleaner Water

Pollution on streets, parking lots and lawns is washed by rain into storm drains, then directly to our drinking water supplies and the ocean and lakes our children play in. Fertilizer, oil, pesticides, detergents, pet waste, grass clippings: You name it and it ends up in our water.

Stormwater pollution is one of New Jersey’s greatest threats to clean and plentiful water, and that’s why we’re all doing something about it.

By sharing the responsibility and making small, easy changes in our daily lives, we can keep common pollutants out of stormwater. It all adds up to cleaner water, and it saves the high cost of cleaning up once it’s dirty.

As part of New Jersey’s initiative to keep our water clean and plentiful and to meet federal requirements, many municipalities and other public agencies including colleges and military bases must adopt ordinances or other rules prohibiting various activities that contribute to stormwater pollution. Breaking these rules can result in fines or other penalties.

As a resident, business, or other member of the New Jersey community, it is important to know these easy things you can do every day to protect our water.

Limit your use of fertilizers and pesticides

- Do a soil test to see if you need a fertilizer.
- Do not apply fertilizers if heavy rain is predicted.
- Look into alternatives for pesticides.
- Maintain a small lawn and keep the rest of your property or yard in a natural state with trees and other native vegetation that requires little or no fertilizer.
- If you use fertilizers and pesticides, follow the instructions on the label on how to correctly apply it.

Properly use and dispose of hazardous products

- Hazardous products include some household or commercial cleaning products, lawn and garden care products, motor oil, antifreeze, and paints.
- Do not pour any hazardous products down a storm drain because storm drains are usually connected to local waterbodies and the water is not treated.
As required by NJDEP regulations, the Borough of Stratford would like to give all pet owners a friendly reminder regarding pet regulations. According to Borough Code – Chapter 6:04 – Dogs and Cats:

Removal of feces. No person owning, keeping or harboring a dog, cat or other domestic animal shall cause or allow such dog, cat or other domestic Defecation animal to soil, defile, defecate on or commit any other nuisance on any public street, public walkway, public park, public building or any other public property, or upon any private property without the consent of the owner. Any persons, excluding a blind person with a guide dog, owning, keeping or harboring any dog, cat or other domestic animal which soils, defiles, defecates on or commits any nuisance on any public street, public walkway, public park, public building or any other public property, or upon any private property without the consent of the owner, shall immediately remove all feces deposited by any such dog, cat or other domestic animal in a sanitary manner.

“Proper disposal” of pet solid waste is placement in a designated waste receptable, or other suitable container, and discarded in a refuse container which is regularly emptied by the municipality or some other refuse collector, or disposal into a system designed to convey domestic sewage for proper treatment and disposal.

Running at large prohibited. No person owning, keeping or harboring a dog, cat or other domestic animal shall suffer or permit it to run at large upon the public streets, public sidewalks, public parks or in any public building or in any other public place or on any private property without consent of the owner.

Leash requirement. No person owning, keeping or harboring a dog, cat or other domestic animal shall suffer or permit it to be upon the public streets or in any public places of the borough unless such dog is accompanied by a person over the age of twelve (12) years and is securely controlled and confined by an adequate leash not more than six (6) feet long.

Thank you for your consideration of your neighbors and for your care for our public spaces!
